DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species A in the reply filed on 10/18/04 is acknowledged.
2. No claims are hereby withdrawn from further consideration pursuant to 37 CFR 1.142(b).

Double Patenting

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claim 21 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 14. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3612

6. Claims 7, 9, 15-16, and 23-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 recites the limitation "a plurality of support brackets" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "said plurality of end brackets" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 15 recites the limitations "said bracket support end plate" in line 7 and "said bracket support" in lines 8-9. There is insufficient antecedent basis for these limitations in the claim.

Claim 23 recites the limitation "said bracket support and plate" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-3 and claim 7 are rejected under 35 U.S.C. 102(b) as being anticipated by McConnell et al.

For claim 1, McConnell et al. (4,334,211) disclose a spoiler for a vehicle 12 comprising: at least one support bracket 14 having a first end opposite a second end adapted to have said first

Art Unit: 3612

end secured to the vehicle; and a substantially transparent spoiler wing 10 secured to said second end.

With regard to claim 2, a light module is coupled to said spoiler wing for illumination thereof.

With regard to claim 3, said spoiler wing has a void for receiving said light module.

With regard to claim 7, the spoiler has a plurality of support brackets 14, each said support bracket having said second end secured to said spoiler wing.

9. Claims 1-3 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Krent et al

For claim 1, Krent et al. (5,709,453) disclose a spoiler 36, 38 for a vehicle comprising: at least one support bracket (Figure 4) having a first end opposite a second end adapted to have said first end secured to the vehicle; and a substantially transparent spoiler wing secured to said second end.

With regard to claim 2, a light module 70 coupled to said spoiler wing for illumination thereof.

With regard to claim 3, said spoiler wing has a void for receiving said light module.

With regard to claim 5, the void is aligned with said second end.

Allowable Subject Matter

10. Claims 21-22 is objected as being a substantial duplicate of another claim and as being dependent upon an objected claim, respectively.

Art Unit: 3612

11. Claims 4, 8, 10-14, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

12. Claims 9, 15-16, and 23-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
